

**LED** Circline Lighted Magnifier

*Classic designs  
with innovative  
LED technology*

*ESD-safe  
models  
available*

**The Ultimate Lighted Magnifier**

**Exceptionally Bright** - over 2X brighter than a 22W fluorescent bulb with a vibrant 1440 Lumen light output

**Unsurpassed Clarity** - crown optical grade glass lenses provide crystal clear, distortion free magnification

**Glare Free** - fully diffused solid state light engine eliminates distracting hot spots or multi shadowing

**Conveniently Dimmable** - smooth dimmable control with separate ON/ Off Switch to retain intensity setting

**Energy Efficient** - 30% more energy efficient than a standard 22W Circline fluorescent bulb

**UV Free** - no ultraviolet (UV) radiation emitted from LED light source

**Metal Shade** - dissipates heat and allows the magnifier to operate at a cool temperature - especially important in close operating proximity

**ESD-Safe** - ESD-safe models available in ESD Black only

**Glow Panel**

Thermally formed diffuser with advanced optical film maximizes light transmission while fully diffusing and mixing the light output of the 144 LEDs to produce a bright “glow” similar to the appearance of a standard fluorescent bulb

**LED Technology**

**Quality Workmanship**

**Floating Arm Technology** - features Dazor's patented floating adjustable arm for smooth, easy and steady positioning of the lamp to any position

**Built to Last** - 60,000hr rated LED life with interchangeable electrical parts for easy replacement for years of worry free operation

**Low Maintenance** - no filaments, no bulb burn out, no bulb breakage, no bulb replacement, lowest lifetime maintenance of any light source

**All Metal Construction** - all metal construction for durability – suitable for high use environments

**Mounting Options** - Desk Bases, Clamp Mounts, and Floor Stand Models available including multiple optional mounting bases (sold separately)

**Professional Grade Quality** - Made in the USA of high quality materials

# Options and Accessories

## Arm Styles

### Modern Floating Arm

### Classic Floating Arm

### Specifications

Lumens	1440
Power Consumption	15 Watts
Color Temperature	6500K
Input Voltage	100V-240VAC
	DC50/60Hz
Output Voltage	24V DC
CRI	92+

### Color Options

Black	
Dove Grey	
ESD Black*	
White	

\*ESD Black available in Contemporary Arm only

## Magnification Options

1.75X	3-diopters	13" working distance	5" circle
2.25X	5-diopters	8" working distance	5" circle
3.75X	11-diopters	3.75" working distance	3" circle
5.00X	16-diopters	2.5" working distance	3" circle

## Standard Base Options

Dual Clamp Base

Desk Base

Pivot Base

Mobile Floor Stand

Pedestal Floor Stand

## Optional Bases - FOR PIVOT BASE MODELS

Wall Mount

Tabletop Bushing

Sloped Surface
