

LED Hand-Held Magnifier Series

An innovative combination of superior optics and advanced lighting design in a compact and portable lighted magnifier.

The revolutionary optics system offers a generous working distance while maintaining the maximum magnification power. Correctly positioned and properly angled bright LED lighting ensures proper illumination of the viewed object.

Dazor's lighted magnifiers offer breakthrough technology in portable illuminated magnification.

KEY FEATURES

- Crown-optical grade glass lens for distortion-free viewing
- Choice of 2.5X, 5X and 10X magnification levels
- Choice of 12 or 24 bright-white high-powered LEDs
- For specialized inspection applications, 12 bright-white + 12 UV LEDs (390nm)
- Instant-on and flicker free
- “Kick-stand” for hands-free use
- 50,000 hour bulb life
- Convenient carrying/storage case
- Powered by 4 “AAA” batteries (not included)
- 1 year manufacturer’s warranty

MODEL #	MAGNIFICATION	LIGHT SOURCE
J200HHM	2.5X	12 White LEDs
J203HHM	2.5X	24 White LEDs
J202HHM	2.5X	12 White/12 UV LEDs
J210HHM	5X	12 White LEDs
J213HHM	5X	24 White LEDs
J212HHM	5X	12 White/12 UV LEDs
J220HHM	10X	12 White LEDs
J223HHM	10X	24 White LEDs
J222HHM	10X	12 White/12 UV LEDs
