

LED Stretchview Lighted Magnifier

**NEW FOR
2016**

*Classic designs
with innovative
LED technology*

The Ultimate Lighted Magnifier

White Light LED's - brighter than a 18W fluorescent bulb with a vibrant 2000 Lumen light output

Unsurpassed Clarity - crown optical grade glass lenses provide crystal clear, distortion free magnification

Glare Free - fully diffused solid state light engine eliminates distracting hot spots or multi shadowing

Conveniently Dimmable - smooth dimmable control with separate ON/ Off Switch to retain intensity setting

Energy Efficient - 30% more energy efficient than a standard 18W Stretchview fluorescent bulb

UV Free - no ultraviolet (UV) radiation emitted from LED light source

Shade - dissipates heat and allows the magnifier to operate at a cool temperature - especially important in close operating proximity

Glow Panel

Thermally formed diffuser with advanced optical film maximizes light transmission while fully diffusing and mixing the light output of the 80 LEDs to produce a bright "glow" similar to the appearance of a standard fluorescent bulb

LED Technology

Quality Workmanship

Floating Arm Technology - features Dazor's patented floating adjustable arm for smooth, easy and steady positioning of the lamp to any position

Built to Last - 50,000 hr rated LED life with interchangeable electrical parts for easy replacement for years of worry free operation

Low Maintenance - no filaments, no bulb burn out, no bulb breakage, no bulb replacement, lowest lifetime maintenance of any light source

Durable Construction - Time tested construction for durability - suitable for high use environments

Mounting Options - Desk Bases, Clamp Mounts, and Floor Stand Models available including multiple optional mounting bases (sold separately)

Professional Grade Quality - Made in the USA of high quality materials

Options and Accessories

Arm Styles

Contemporary Floating Arm

Classic Floating Arm

Machine Friction Arms

Specifications

Lumens	2000
Power Consumption	20 Watts
Color Temperature	6500K
Input Voltage	100V-240VAC
	DC50/60Hz
Output Voltage	24V DC
CRI	92+

Color Options

Almond	
Black	
Dove Grey	
White	

Magnification Options

1.75X	3-diopters	13" working distance	6.75X4.25" Lens
2.25X	5-diopters	8" working distance	3X5" Lens
5.00X	16-diopters	2.5" working distance	3" circle

Standard Base Options

Dual Clamp Base

Desk Base

Pivot Base

Mobile Floor Stand

Direct Mount Base
Friction Arm Only

Pedestal Floor Stand

Optional Bases - FOR PIVOT BASE MODELS

Wall Mount

Sloped Surface

Bench Backsplash

Tabletop Bushing

Wall Partition
